

# My Funny Valentine

## Niall O'Sullivan

Cross-genre trumpet star Niall O'Sullivan has wowed audiences all across Ireland and the USA. His interpretations of jazz ballads and classical works have earned him abundant international praise, and his reinvention of traditional tangos has audiences rising to their feet repeatedly. Whether he is performing with full orchestra or just a piano, Niall O'Sullivan and his fellow musicians continue to dazzle the public and give them a fresh appreciation for the trumpet.

As a side man, Niall has worked with the biggest names in music, including Tom Jones, Michael Buble, Amy Winehouse, Perry Como, Dionne Warwick, Jose Carreras, Sinéad O'Connor and was recently guest soloist for Josh Groban's Irish tour. His latest album *Niall O'Sullivan and Friends* features a host of international artists, including Grammy Award-winning guitarist Larry Carlton, opera superstar Danielle de Niese, and theatre royalty Kim Criswell. Accompaniment was provided by the RTÉ Concert Orchestra and was produced by the legendary British musician Julian Lloyd Webber.

## Shóna
